

## CLIMBING

You can climb pipes and ladders that are surrounded by glowing blue sparkles. To do so, press the **○** button to attach onto the object and then use the left analog stick or directional buttons to climb up and down. Climbing pipes and ladders can be a great way to reach city rooftops and get to your waypoint beacons unseen.

## TOOLS OF THE TRADE SAFE HOUSE

A good Safe House is the cornerstone of a thief's success. The Safe House is a hub for planning and preparation and can be used to get some rest, change playable characters and purchase and sell items through Flietheft. You can locate the Safe House from the city at any time with your Binocum by pressing the **○** button and finding the yellow beacon that points directly to it. You can also ping the Safe House beacon by pressing the **○** button. If you enter a Safe House while in the middle of a job, the job will be abandoned and you will have to start from the beginning.

## SWITCHING CHARACTERS

A master thief worth his weight in loot knows that teamwork is the key to pulling off a successful job. Oftentimes, in order to complete a heist, it will take the combined skills of each individual team member. There are three different color-coded job start beacons that show whose skills are needed for that particular area. You can switch between the available team members in the Safe House, as well as access Thieftet, by using the left analog stick or directional buttons **←** and **→**, and make your selection with the **○** button.

## THIEFTET

sextilling text bar. Press the **○** button to logon to Thieftet. Once connected, you'll find all the current items available for purchase. To purchase an item, make sure you have enough coins, then highlight the gadget and press the **○** button to confirm.

## ART DECEPTION

You'll find that many a paranoid thug likes to keep their valuables in strong safes hidden behind pieces of art - and who can blame them? Thankfully, many of these thugs can't remember their phone number let alone a three-digit safe combination, so they hide these numbers inside the painting itself. It takes a talented sleuth with a sharp eye and the mind-bending powers of deduction to decipher code somewhere on the painting. To decipher a painting, approach it and press the **○** button. Next, use the left analog stick or directional buttons to move the magnifying glass around the painting and press the **○** button to zoom in and magnify the portion inside the glass. Once you find the well-hidden three-digit code, press the **○** button to open the painting and then use the left analog stick or directional buttons to cycle through each of the combinations and input the code. You can exit out at any time by pressing the **○** button.
