

WARNING: READ BEFORE USING YOUR PLAYSTATION 2 COMPUTER ENTERTAINMENT SYSTEM.

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns, flashing lights. Exposure to certain patterns on backgrounds on a television screen or while playing video games, including games played on the PlayStation 2 console, may trigger epileptic seizures in these individuals. If you experience any of the following symptoms while playing a video game — dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions — IMMEDIATELY discontinue use and consult your physician before resuming play.
